**Conductive Education Bristol CIC** - we run group and 1:1 sessions for children and young adults with neurological movement disorders including Cerebral Palsy, GDD, Downs syndrome, Genetic and Metabolic conditions. We work on developing engagement, fine and gross motor skills, choice making and communication skills, self care skills, problem solving skills, self esteem and confidence. We run parent and child sessions for children 1 yr - 6yrs, primary and secondary aged groups and complex needs parent and child groups for children/teenagers.

The therapy assistant will be supporting our qualified Conductive Education practitioner (BA(Hons)QCS) during group sessions to set up and tidy up the room and physically working with the children during programmes, working on physical skills, games and creative activities, transferring / walking tasks, lunch time and toileting. The ideal candidate will have prior experience of working with children/young people with physical or complex needs including communication, medical or sensory needs.

A clean enhanced DBS check (paid for by the company) and 2 references will be required by the successful candidate. Online training surrounding manual handling / moving and handling, first aid, child protection and epilepsy will be required to be completed (time spent completing annual training to be paid at the same hourly rate). Specific in house training surrounding Conductive Education, neurological conditions and how to physically support each individual will be provided.
